Professional Summary

Results-driven Computer Science student with a solid foundation in software engineering, adept at developing full-stack web applications, solving complex problems, and orchestrating collaborative projects. Spearheaded and coordinated key initiatives in university tech events, showcasing leadership and communication excellence. Continuously expanding technical expertise through hands-on learning and innovation.

Education

Mohan Babu University, B.Tech in Computer Science August 2022 - Present

- CGPA: 8.48/10

Sri Chaitanya Jr College, Intermediate Education - MPC 2020 - 2022

- Percentage: 91

Technologies

Languages: : Java, JavaScript, SQL

Frontend: : HTML, CSS, React.js

Backend: : MySQL, Node.js, Express.js, MongoDB

Tools and Platforms: Git, GitHub, VS Code, Chrome-DevTools

Projects

Adventuro - AI Travel Planner

- Developed an AI-powered travel planning platform that generates customized itineraries by combining user preferences with OpenAI API recommendations.
- Developed 8+ reusable components and implemented secure JWT authentication with protected routes.
- Integrated real-time travel data through third-party APIs and managed backend using Express.js and MongoDB.

TaskMate – Task Management Application

- Developed a productivity web app with To-Do management (create, edit, delete, categorize, filter, mark complete), Focus Timer with session analytics, Personal Reminders, and AI-powered daily task suggestions.
- Implemented secure JWT-based authentication for user privacy and optimized backend APIs with server-side pagination for performance.
- Designed and built a responsive, modern UI using Tailwind CSS for seamless cross-device usability.

Developer Portfolio

- Created a dynamic portfolio website to showcase 3+ personal projects and technical skills.
- Used Framer Motion and Tailwind CSS for animations and responsive design.
- Achieved perfect Lighthouse scores for performance, SEO, and accessibility.
